

CLAIMS

Having thus described my invention, I claim:

1 **1.** A gift container comprising:

2 a bottom section having a base with at least one edge;

3 said bottom section having at least one side in connection with said base;

4 said bottom section having an open portion opposite said base;

5 a top section having a top cover with at least one edge;

6 said top section having at least one side in connection with said cover; and

7 said top section having an open portion opposite said cover.

1 **2.** The gift container of claim 1 wherein:

2 said top section is slightly larger than said bottom section.

1 **3.** The gift container of claim 2 wherein:

2 said top section top cover edge is circular having a pre-determined top cover
3 circumference; and

4 said bottom section base edge is circular having a pre-determined base
5 circumference.

6 **4.** The gift container of claim **2** wherein:
7 said top section top cover has at least three lineal edges creating a pre-
8 determined perimeter; and
9 said bottom section base has at least three lineal edges creating a pre-
10 determined perimeter.

1 **5.** The gift container of claim **3** wherein:
 said side in connection with said bottom is connected along said base
circumference; and
 said side in connection with said top section is connected along said top cover
circumference.

1 **6.** The gift container of claim **4** wherein:
2 said sides in connection with said bottom is connected along said base
3 perimeter; and
4 said sides in connection with said top section is connected along said top cover
5 perimeter.

1 **7.** The gift container of claim **1** wherein:

2 said bottom section is transparent; and

3 said top section is transparent.

1 **8.** The gift container of claim **1** wherein:

2 a musical winder is attached to said side of said bottom section; and

3 said musical winder is connected to an internally located music box.

1 **9.** The gift container of claim **1** wherein:

2 a musical bow is attached to said top cover.

1 **10.** The gift container of claim **7** wherein:

2 personalized labels are inserted into said gift container so as to be visible from

3 said bottom section.

1 **11.** The gift container of claim **7** wherein:

2 personalized labels are inserted into said gift container so as to be visible from

3 said top section top cover.

1 **12.** The gift container of claim **4** wherein:
2 said top section top cover perimeter is triangular; and
3 said bottom section base perimeter is triangular.

1 **13.** The gift container of claim **4** wherein:
2 said top section top cover perimeter is square; and
3 said bottom section base perimeter is square.

1 **14.** The gift container of claim **4** wherein:
2 said top section top cover perimeter is rectangular; and
3 said bottom section base perimeter is rectangular.
